Statement of the Board pursuant to Chapter 18, Section 4 of the Swedish Companies Act

The Board has proposed that the EGM on 5 November 2020 resolve on a dividend of SEK 4.25 per share, corresponding to a total dividend of SEK 61 762 845. In view of this proposal, the Board hereby makes the following statement in accordance with Chapter 18, Section 4 of the Swedish Companies Act.

The company's policy is that at least 25% of the result for the year be paid to the shareholders. When establishing the dividend level, the Board shall take into account, *inter alia*, the Group's expansion opportunities, financial position and investment needs. The proposed dividend can be made without negative impact on the said factors.

One of the company's financial objectives is that the Group's net debt shall not exceed 2.0x EBITDA. The said objective will be fulfilled also after the proposed dividend.

The company's restricted equity is fully covered after the dividend.

The Board further finds that that the proposed dividend is justifiable in view of the parameters set out in Chapter 17, Section 3, second and third paragraphs of the Swedish Companies Act.

Calculated as per 31 December 2019, the Group's solvency after the dividend will be approx. 29% (compared to 30% before the dividend), while the company's solvency after the dividend will be 75% (compared to 80% before the dividend). The Board finds this satisfactory with regard to the company's and the group's business.

The Board does not find that the dividend will affect the company's or the group's ability to fulfil their obligations either in the short or long term.

The dividend corresponds to the requirements of the articles of association.

In addition to what has been stated above, the Board has considered other known circumstances which may be of importance for the company's and the group's financial position. In doing so, no circumstance has appeared that does not justify the proposed dividend.

The amount available for allocation by the EGM as per 31 December 2019 amounted to SEK 239 850 957. Should the meeting approve the dividend proposal, at least SEK 178 128 156 will remain of the company's non-restricted equity. The Board finds this to be sufficient in relation to the nature, scope and risks of the business.
